TITLE OF SUBMISSION: Our Void Deck

SUMMARY: Have you seen all the different faces and races at the void decks of our HDBs? If so, then our artwork should not be unfamiliar to you. It illustrates a group of Singaporeans, gathered at a common area seen everywhere in Singapore – the void deck of residential HDBs. These common areas have been the playground for children and adults alike, and a place for everyone of different cultures and races to bond as well. They are eating together from each other's cultures, accepting and appreciating them. This culture of sharing and accepting is also Singapore's culture, being united as one and hence bringing out the theme of "Many Faces, Many Races, One Singapore"! Everyone is unique and special in their own way, but together we are One Singapore.
