THIRD PLACE

PARTICIPANT NAME: Jasmine Zhang Mingbo

TITLE OF SUBMISSION: A Peek Into Future Singapore

SUMMARY: My artwork envisions Singapore's vibrant journey toward the future, showcasing potential innovations by 2040, such as teleportation for instant deliveries, soundproof bubble study rooms tailored for learning, and compassionate robots in healthcare that monitor and assist patients. On the left, the core values of trust, unity, care, and security are represented as a puzzle, emphasizing our national identity. To the right, a diverse group of children aboard a boat, flying the national flower Vanda Miss Joaquim, symbolizes hope and unity as we navigate challenges represented by the waves below. A timeline on its left highlights our advancements, from vertical farming and NEWater which had already been implemented in 2024 to potential breakthroughs like self-driving cars by 2040. Our military forces stand as steadfast anchors, ensuring the safety of our nation. Together, we sail toward a resilient Singapore, ready to embrace the future with innovation, shared values, and a commitment to progress.
