

STATIC 2 INDIVIDUAL – OPEN

FIRST PLACE

PARTICIPANT NAME: Lee Zhe Xuan

TITLE OF SUBMISSION: The puzzle waiting to be done

SUMMARY: In Singapore's 2030 Green Plan target, Singapore wants to increase nature parks' land area and wants every household to be within a 10-minute walk from a park. Therefore, I want to illustrate a green environment within the daily lives of ordinary residents. The sea waves at the corner convey 'Transformation' from now to the greening environment. It also portrays the meaning of 'creating' an illusion for the future. Most importantly, this is a puzzle that is going to be done, which will let the whole scene become more intact. The hand holding the puzzle also represents our anticipation and hope for the future.
